**President & CEO**  
**KOSÉ Corporation**

We, SOCOTEC Certification Japan (hereafter "SOCOTEC"), have performed a limited assurance engagement, in relation to KOSÉ Corporation (hereafter the "Company") in order to provide an opinion as to whether the subject matter information ("FY2018 Report on Calculating for GHG Emissions (Scope3) ") of the Company meets the criteria in all material respects.

## 1 Subject Matter Information and Criteria

## 2 Management Responsibility

"FY2018 Report on Calculating for GHG Emissions (Scope3) (period: April 2018 to March 2019)" was prepared by the management of the Company, who is responsible for the integrity of the assertions, statements, and claims made therein (including the assertions over which we have been engaged to provide limited assurance), the collection, quantification and presentation of all data and information in the report, and applied criteria, analysis and publication.

The management of the Company is responsible for maintaining adequate records and internal controls that are designed to support the reporting process and ensure that "FY2018 Report on Calculating for GHG Emissions (Scope3) (period : April 2018 to March 2019)" is free from material misstatement whether due to fraud or error.

## 3 Assurance Practitioner's Responsibility

The responsibility of SOCOTEC is to express a limited assurance conclusion as to whether the subject matter information has been prepared in compliance with the criteria in all material respects.

SOCOTEC performed limited assurance engagement in accordance with the verification procedures stipulated by SOCOTEC and "ISO14064-3: Specification with guidance for the validation and verification of greenhouse gas assertions".

The procedures implemented in the limited assurance engagement are limited in their type, timing and scope as compared to the procedures implemented in the reasonable assurance engagement. As a result, our limited assurance engagement does not provide as high assurance as reasonable assurance engagement.

The procedures performed depend on the assurance professional practitioner's judgement, including the risk of material misstatement, whether due to fraud or error.

Our conclusion was not designed to provide assurance on internal controls.

We believe that we have obtained the evidence to provide a basis for the conclusion for limited assurance.

- Questions to Company personnel to understand the above policies and procedures

- Matching with the basis data by trial calculation and recalculation
- Obtaining and collating material for important assumptions and other data
- We conducted the verification procedure for the Headquarters of KOSÉ Corporation in order to confirm the calculation structure and procedures, data collection and implementation status of record control.

#### 6 Use of Report

Our responsibility in performing our limited assurance activities is to the management of the Company only in accordance with the terms for this engagement as agreed with the Company. We do not therefore assume any responsibility for any other purpose or to any other person or organisation.

#### 7 Our Conclusion
