To All Members of the KOSÉ Group

We, the KOSÉ Group, develop businesses focused on cosmetics, under our statement of purpose: “Create a culture and values embodying a distinctive beauty through a sophisticated fusion of sensuousness and intelligence.” Ever since KOSÉ was established in 1946, the primary goal for our business activities has been to provide our customers with cosmetic products and services of the utmost quality to achieve profound customer satisfaction. For our customers, business partners, and all persons related to KOSÉ, we intend to continue to strive wholeheartedly to become an enterprise trusted and supported by many people and society in general.

As a clear expression of this intention, we have recently established the “KOSÉ Group Action Policy.” In order to develop continuously and permanently as an enterprise in 21st century society, all group companies and all employees in the KOSÉ Group working at these companies, regardless of their positions, roles and employment status, must behave according to this “Action Policy.”

The “Action Policy” contains nothing out of the ordinary. It is an explicit representation of the rules for our daily behavior, which should comply with laws and regulations, abide by social norms, and be based on sincere, sensible judgment at all times.

As easy as this may seem, significant effort is required to follow these guidelines continually, each and every day. Trust, once lost, is impossible to regain. The KOSÉ Group is supported by the activities of each of you members of the group.

I ask each of you to become more conscious of your role as a member of society, and to declare, to yourself and to the people around you, that you have understood and will act in the spirit of this “Action Policy.”

I intend to work together with all of you to develop the KOSÉ Group into an enterprise that our customers and society can rely on, and which continues to live up to their expectations. I sincerely request your cooperation in this endeavor.

KOSÉ Group Principle of Conduct

We believe that abiding by laws and regulations in all aspects of our business activities and acting in accordance with social ethics represent the essential foundation upon which the KOSÉ Group is built, and the basis of its management.

“Compliance” means to act in accordance not only with the letter but also with the spirit of the law.

While the basic premise of compliance is not to violate any laws, orders, ordinances or internal regulations, we need to go one step further. We must avoid actions based on a convenient interpretation of these requirements, regarding an activity as acceptable just because it is not prohibited by any law. We must avoid actions that society would feel are unfair, even if they do not violate the law.

To act in accordance with social ethics, we must regulate our own actions with honesty and sincerity.

Through these actions, we will strive to remain an entity trusted by society.

1. We pledge to observe the following standards in our relationship with customers and business partners

1) We will emphasize customer-oriented operations, to get closer to our customers.

- We will strive to continue to provide value from a truly customer-oriented perspective, from product planning, research and development, to production and sales, in order to gain the satisfaction and trust of our customers.
- We will strive to provide products, services, advertising and promotion founded on adaptability*, to gain the satisfaction of all our customers.

*Adaptability: the ability to evolve and adjust flexibly to social changes such as globalization
